

The FLX Platform is the most versatile 1/2 rack networked amplifier Stewart has ever produced. This compact package contains over 300 watts of power output in various channel configurations and impedances. At the heart of the platform is a robust, internal full function DSP that is designed to solve a multitude of your audio problems in just one box. The channel count varies from 1-4 channels and the DSP allows further configuration via routing, EQ, filters, limiters and much more. A USB port makes programing simple, fast and repeatable for large installations. The RVC and RS-232 control allow volume control from a wide range of devices. In addition, the FLX platform has an optional factory installed Dante™ card with 4 channels of networked audio in and out. You won't find a more flexible combination of power output and processing in a comparable package on the market today.

FLX 160-2-CV-D shown

## **FLX Series**

#### Analog Model Ordering Part #'s

FLX80-4-LZ 80W x 4 @ 4 0hms FLX80-4-CV 80W x 4 @ 70V/100V FLX160-2-LZ 160W x 2 @ 4/8 0hms FLX160-2-CV 160W x 2 @ 70V/100V FLX320-1-CV 320W x 1 @ 70V/100V

#### Dante/Analog Model Ordering Part #'s

FLX80-4-LZ-D 80W x 4 @ 4 Ohms FLX80-4-CV-D 80W x 4 @ 70V/100V FLX160-2-LZ-D 160W x 2 @ 4/8 Ohms FLX160-2-CV-D 160W x 2 @ 70V/100V FLX320-1-CV-D 320W x 1 @ 70V/100V

\* Each FLX-D model has a 4 x 4 Dante I/O interface imbedded as well as a DSP.

#### Features:

- Onboard DSP for signal routing, filtering, and set programming
- USB and RS-232 available for configuration
- Remote Volume Control
- Phantom Power (2 channels)
- Dante<sup>™</sup> audio network interface option
- 1/2 rack enclosure
- Made in the USA

### **Applications:**

- Dante TM Network Audio
- Hospitality Installations
- Classrooms
- Conference Rooms
- Houses of Worship
- Room combining
